Cada mitja tatxa amunt o avall 1 efecte més o menys

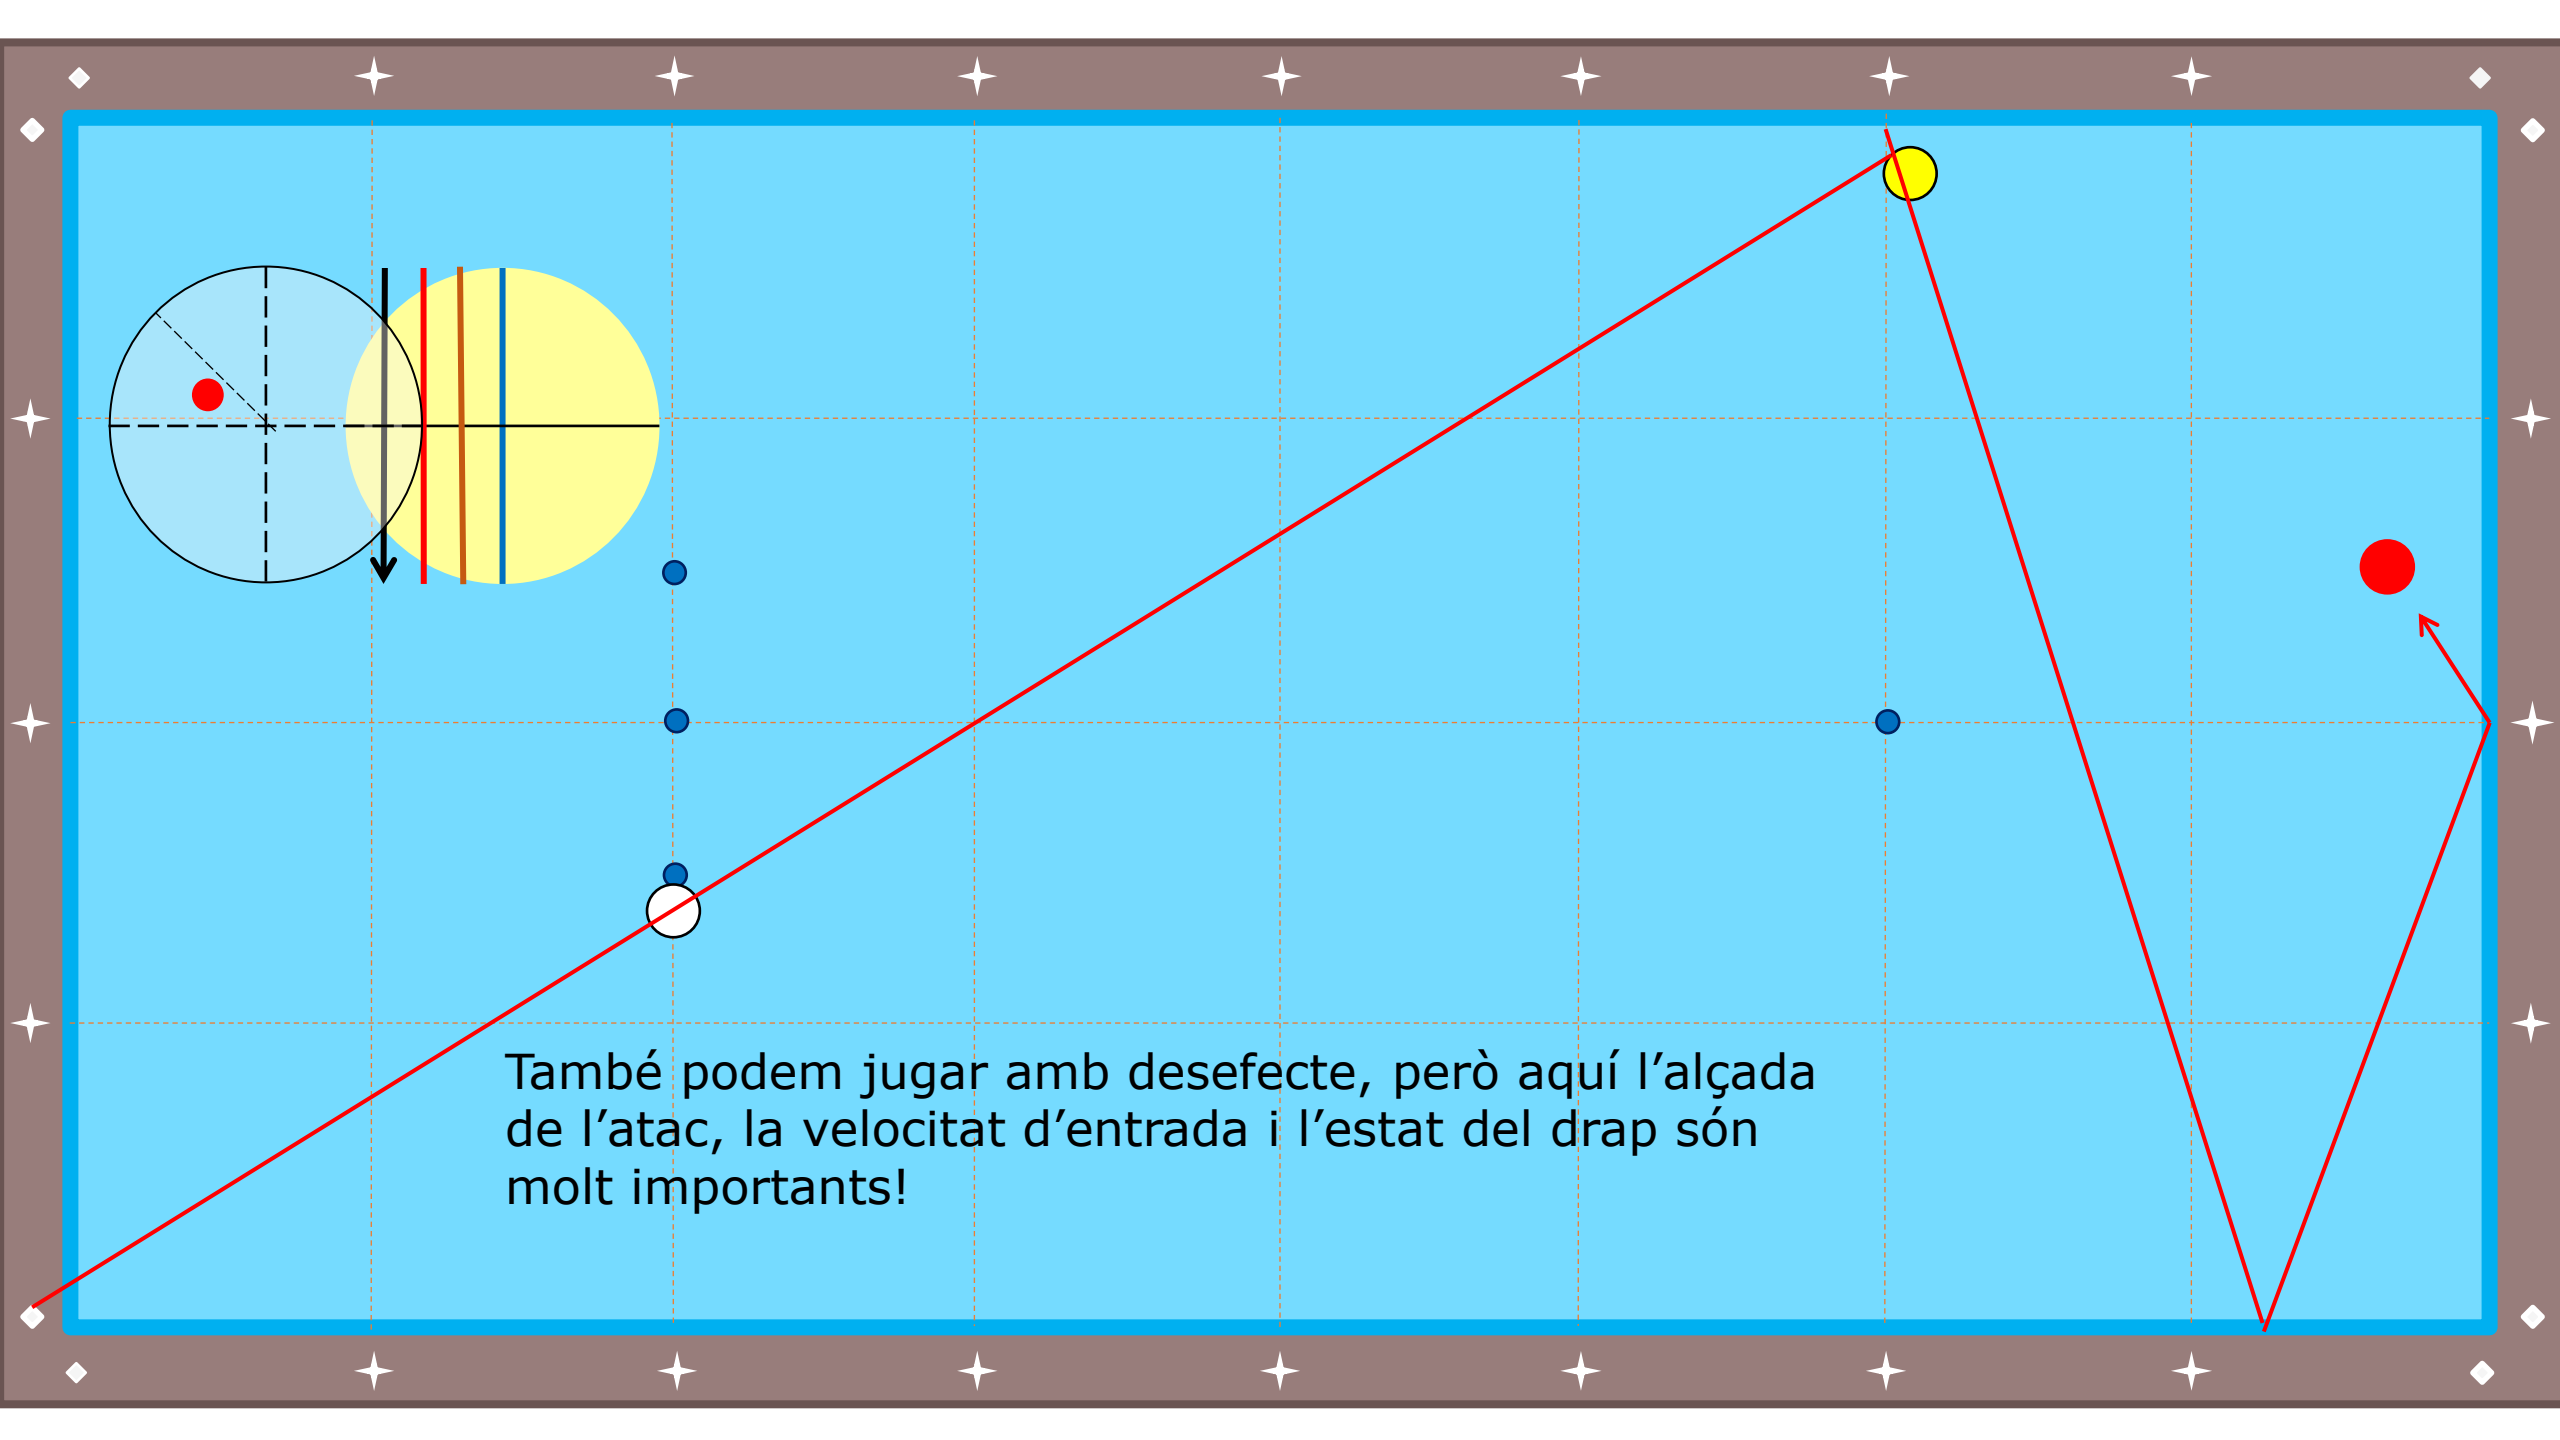

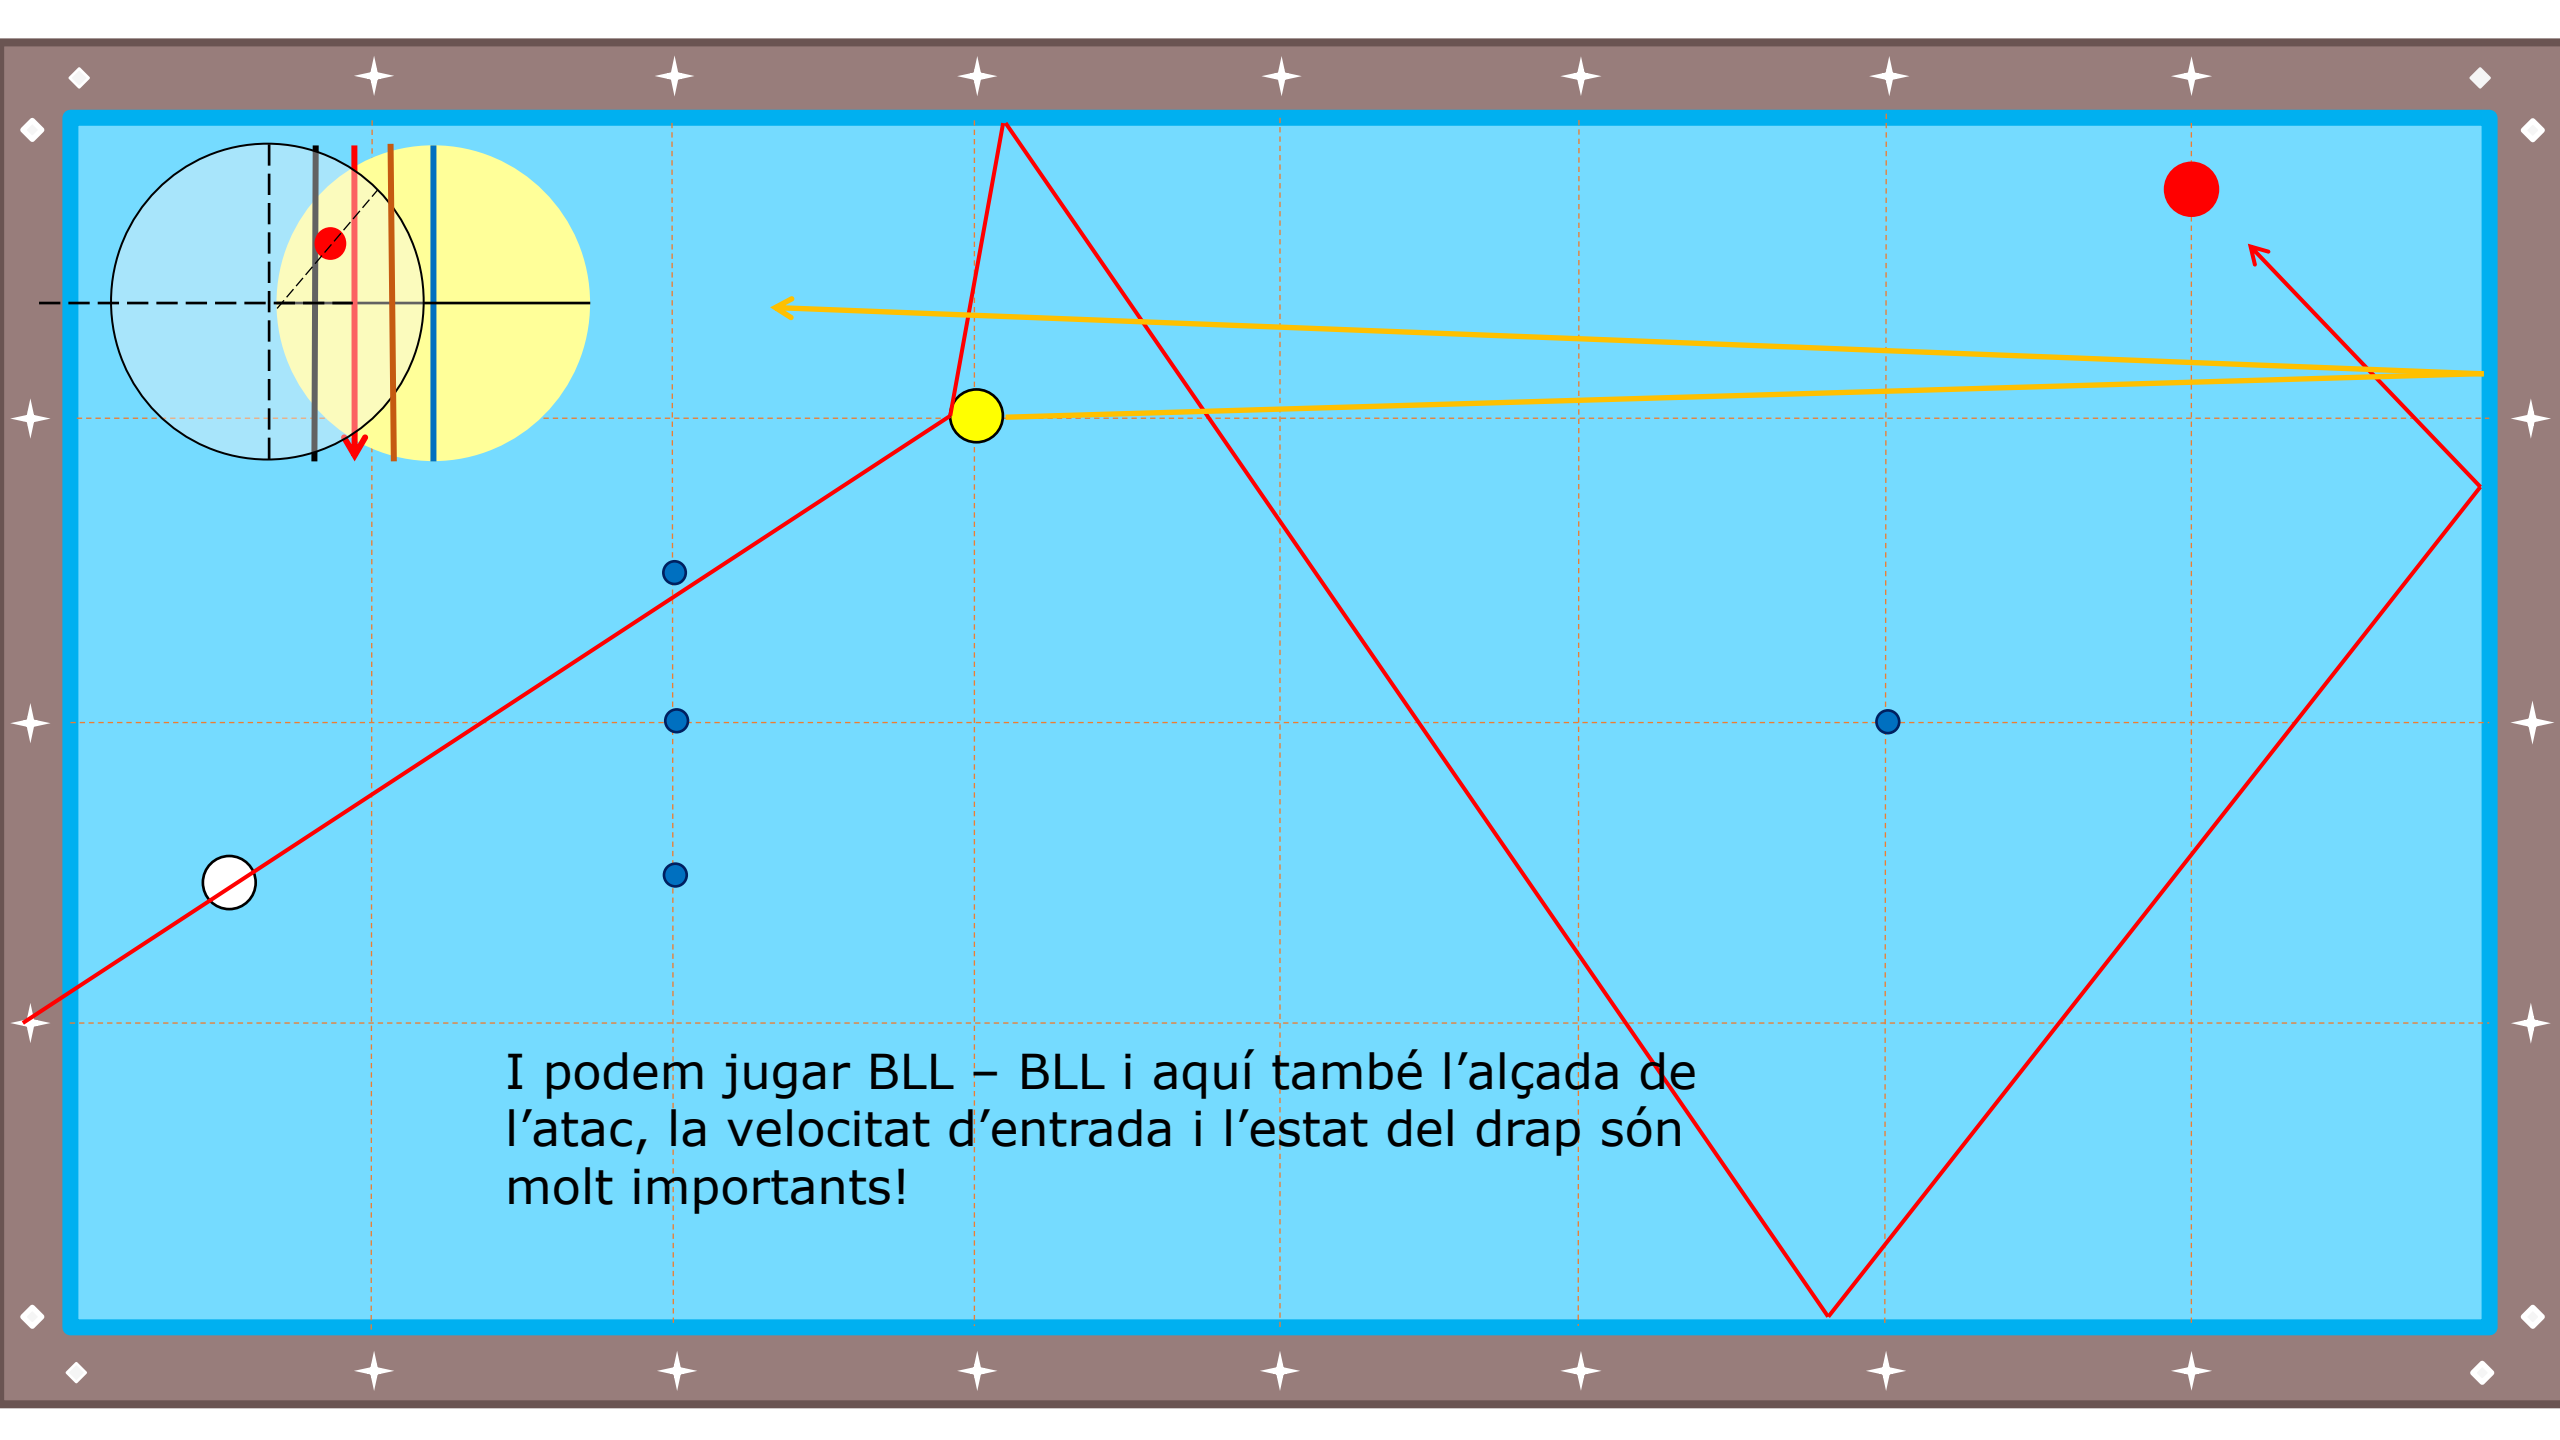

1 tatxa en BL +1EF / 1 tatxa en BK -1 EF

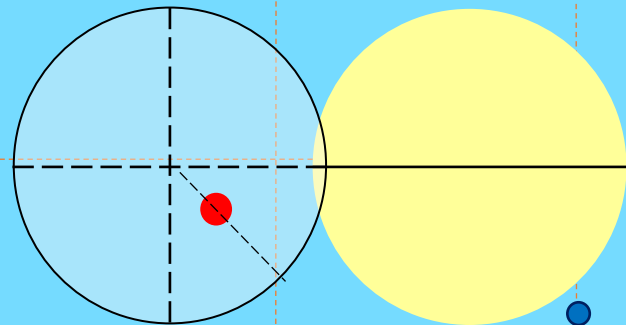

També podem jugar amb desefecte, però aquí l'alçada de l'atac, la velocitat d'entrada i l'estat del drap són molt importants!

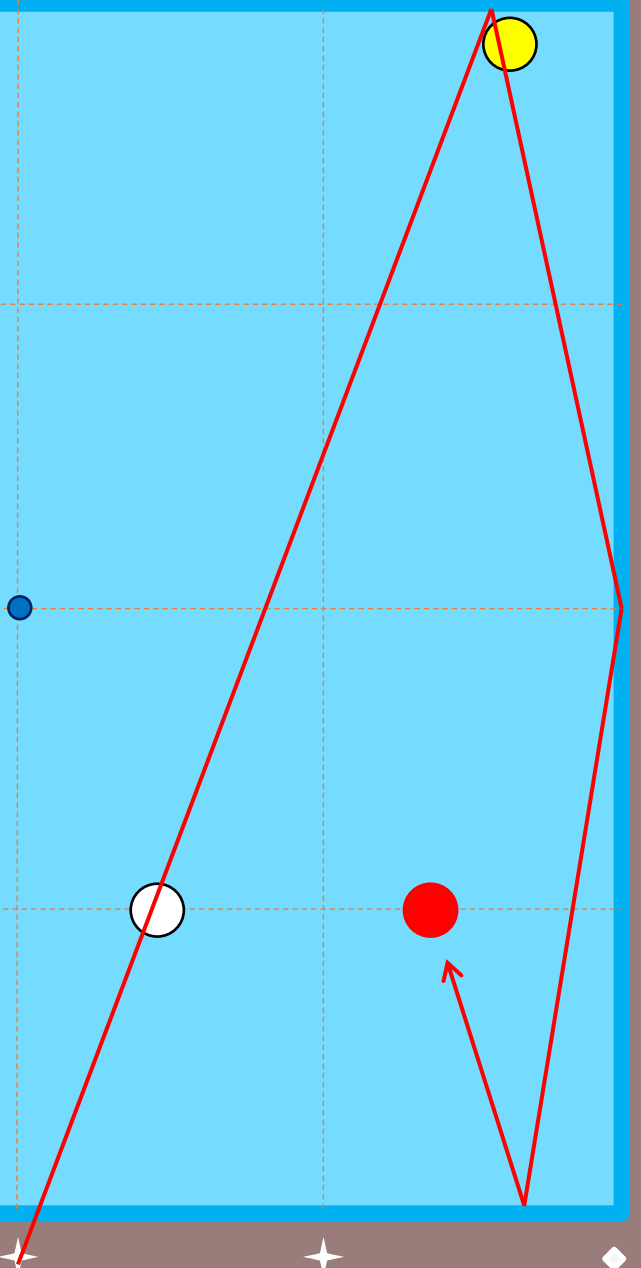

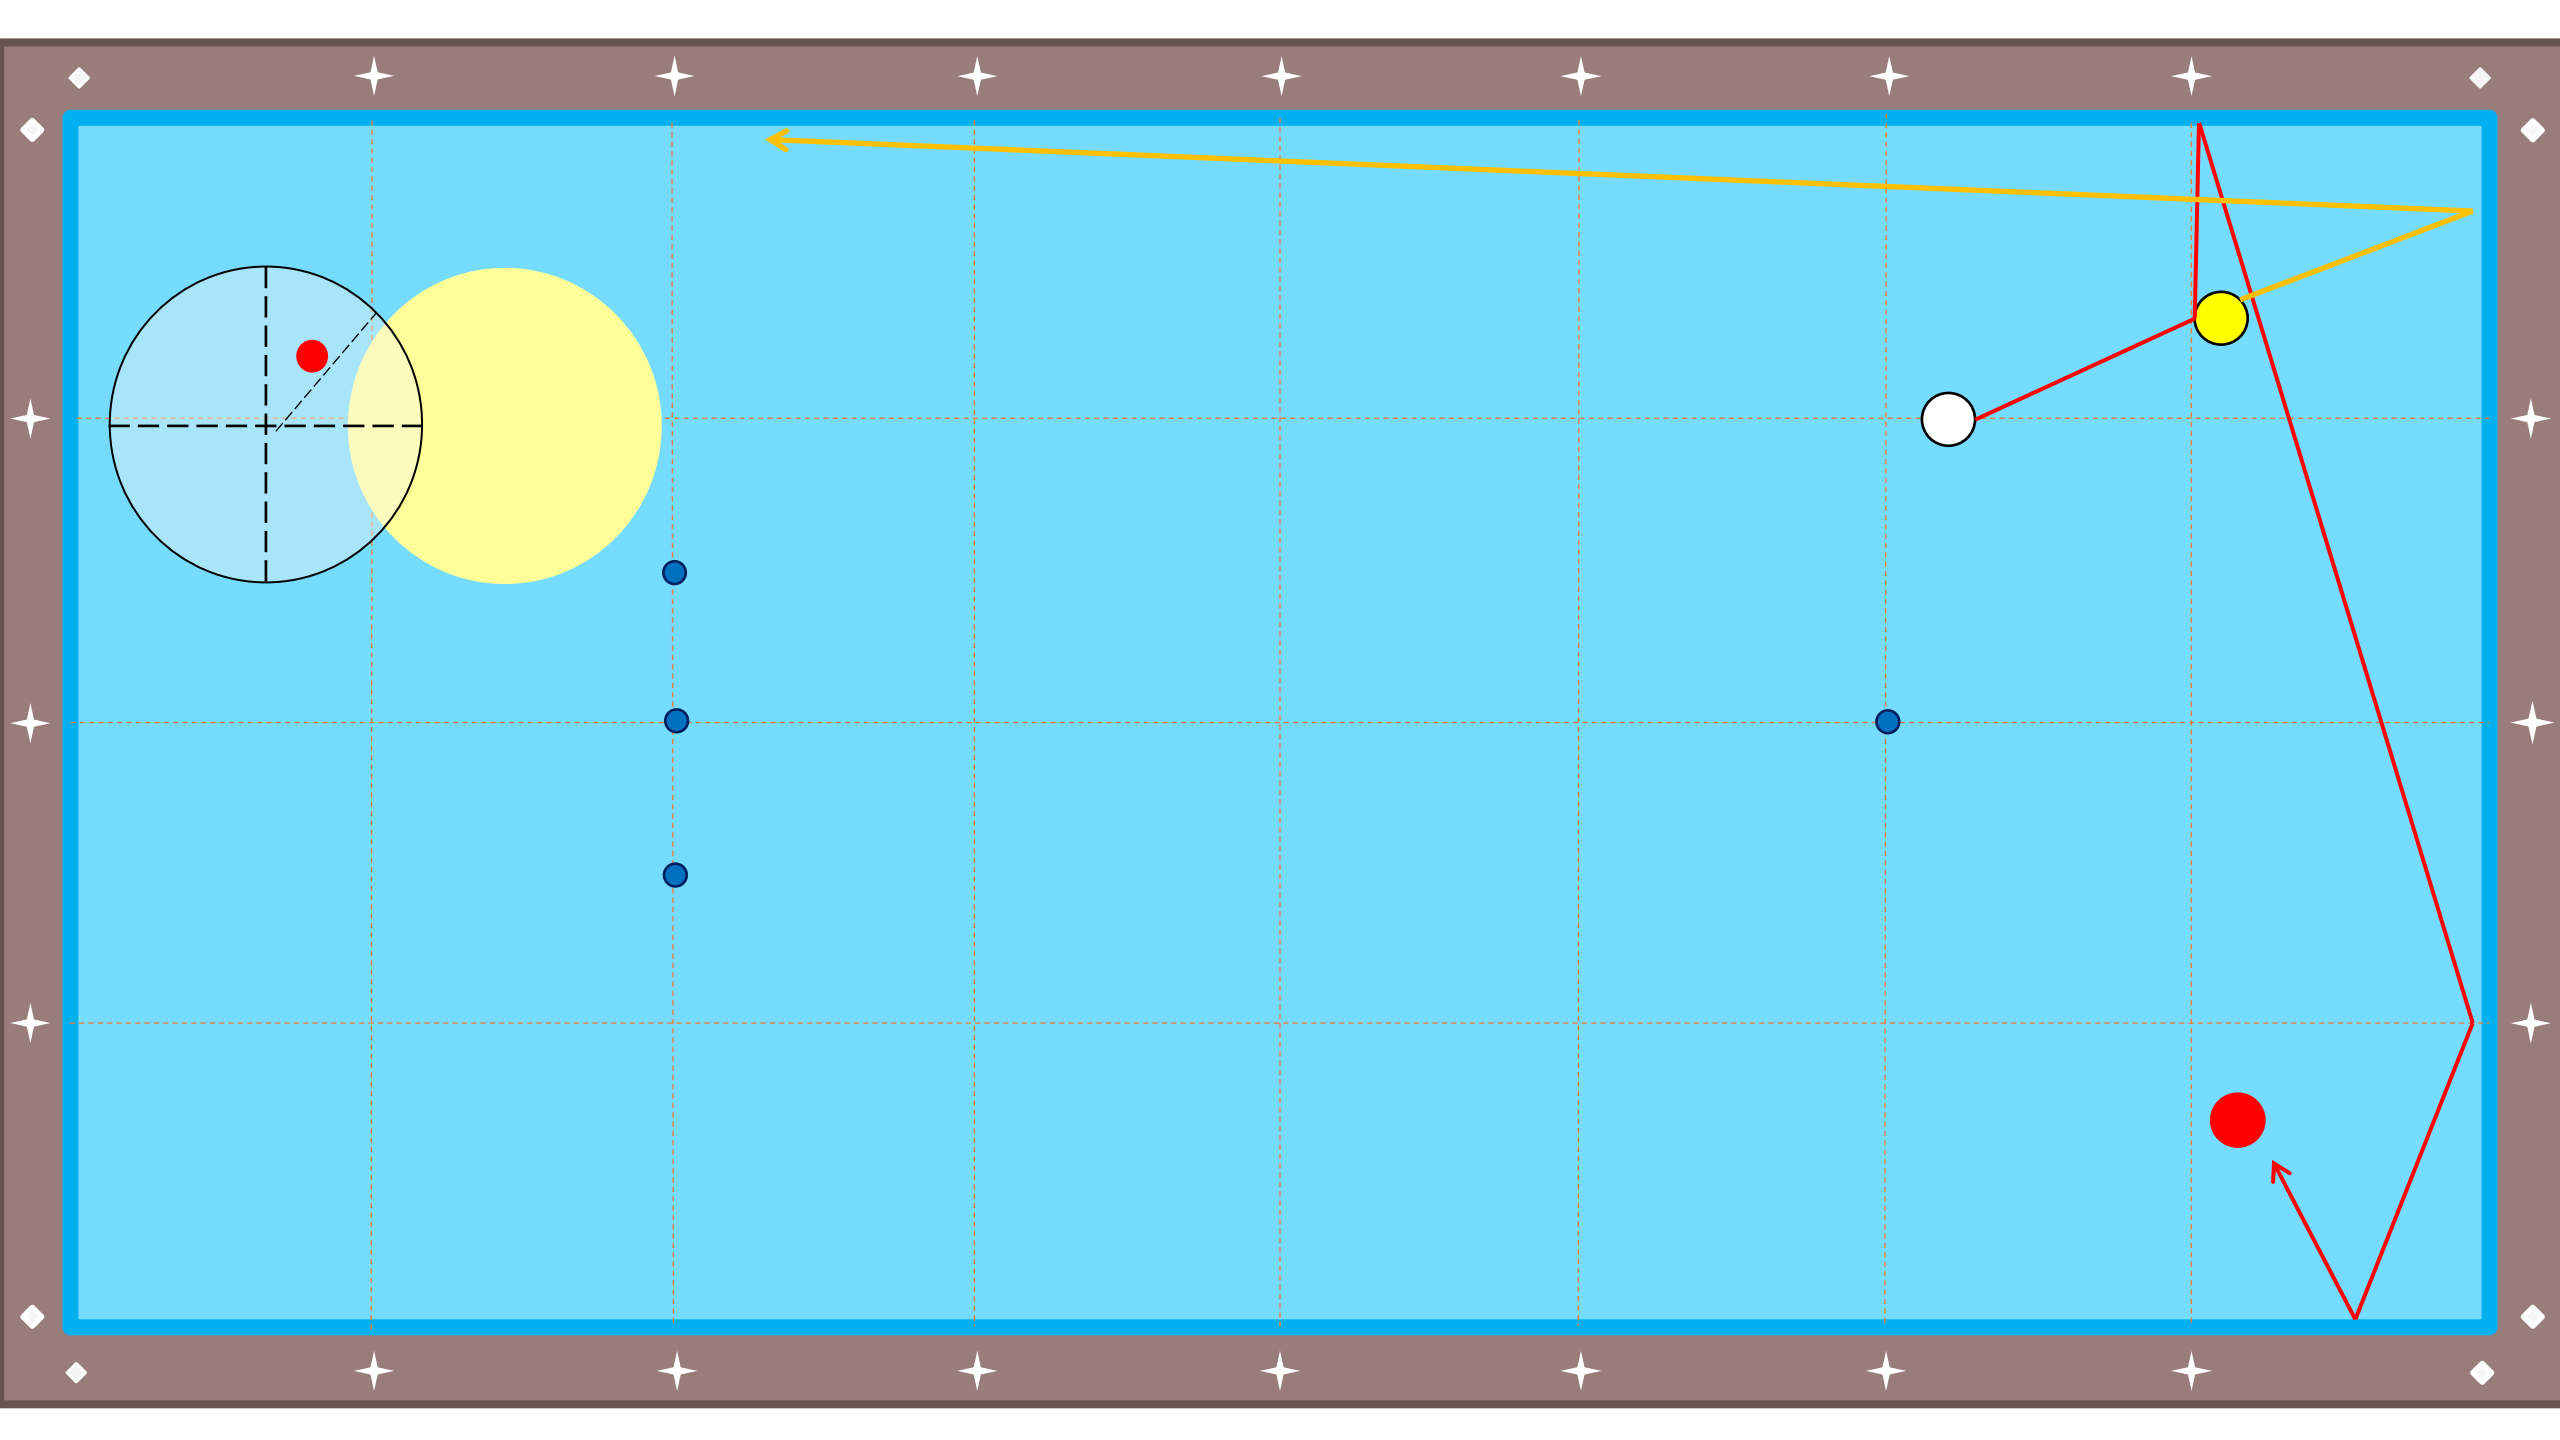

I podem jugar BLL – BLL i aquí també l'alçada de l'atac, la velocitat d'entrada i l'estat del drap són molt importants!

Si la B2 està arrambada a banda, ataquem per sota de cintura.

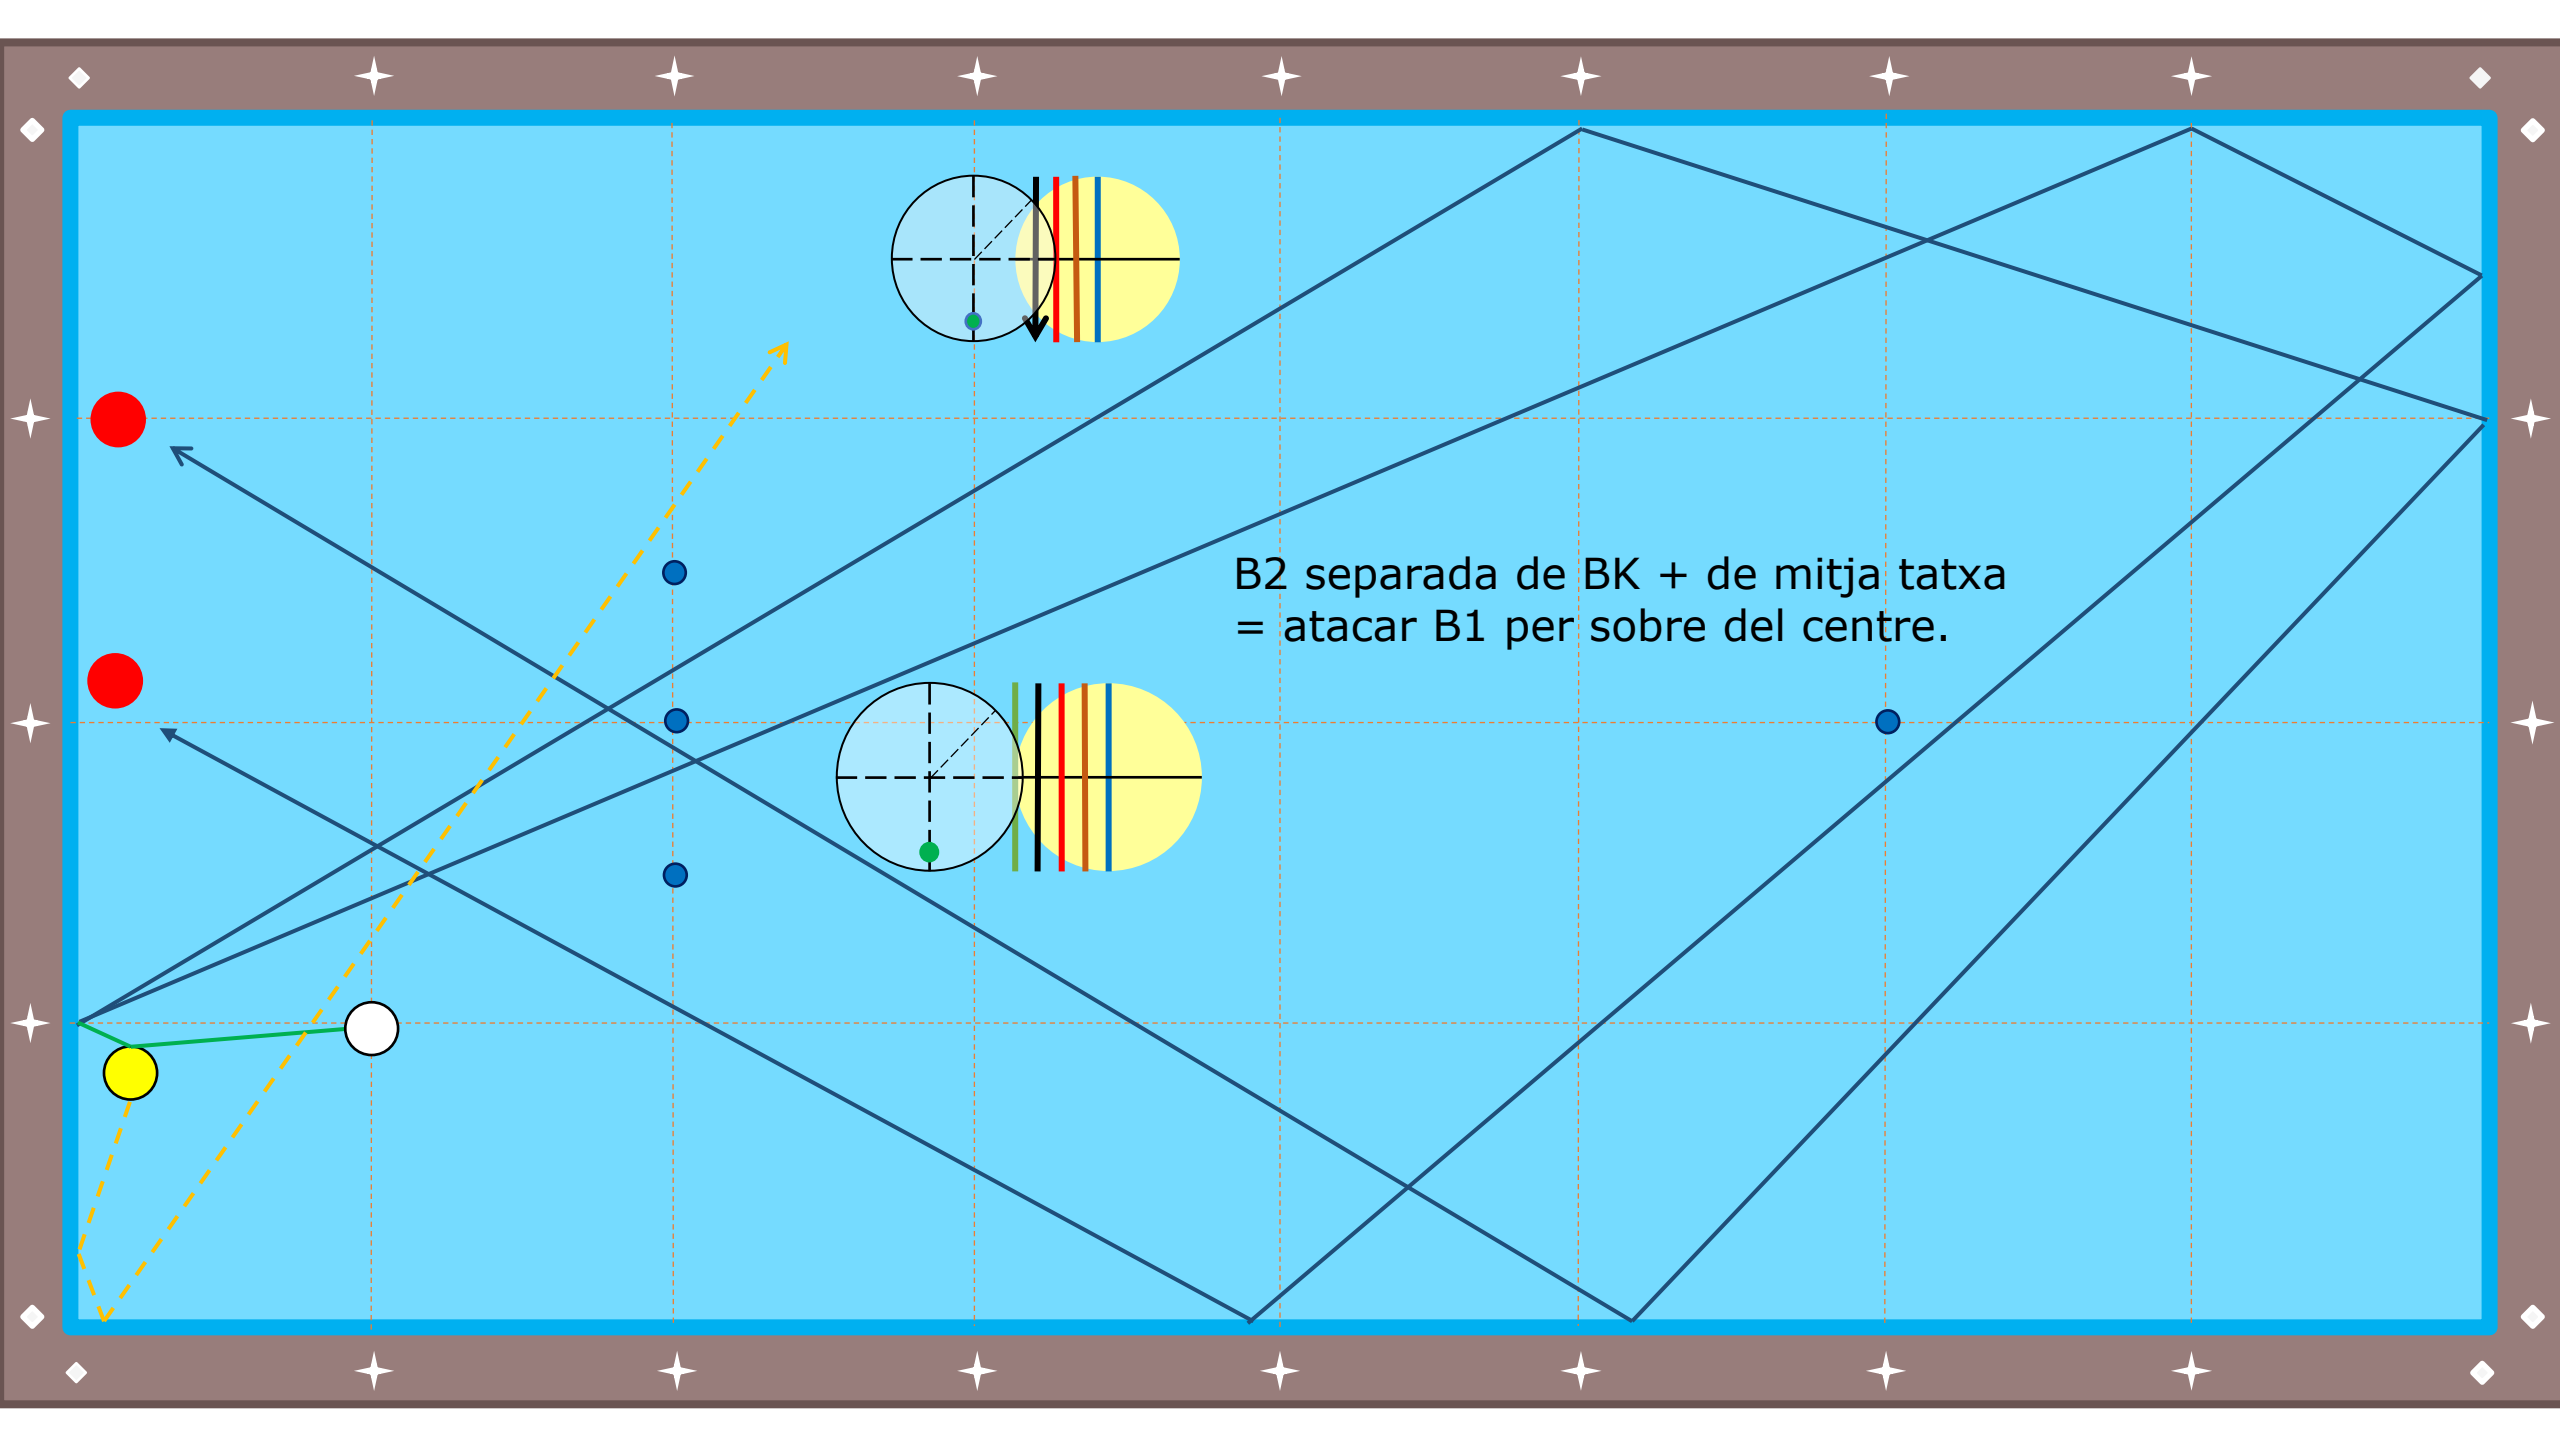

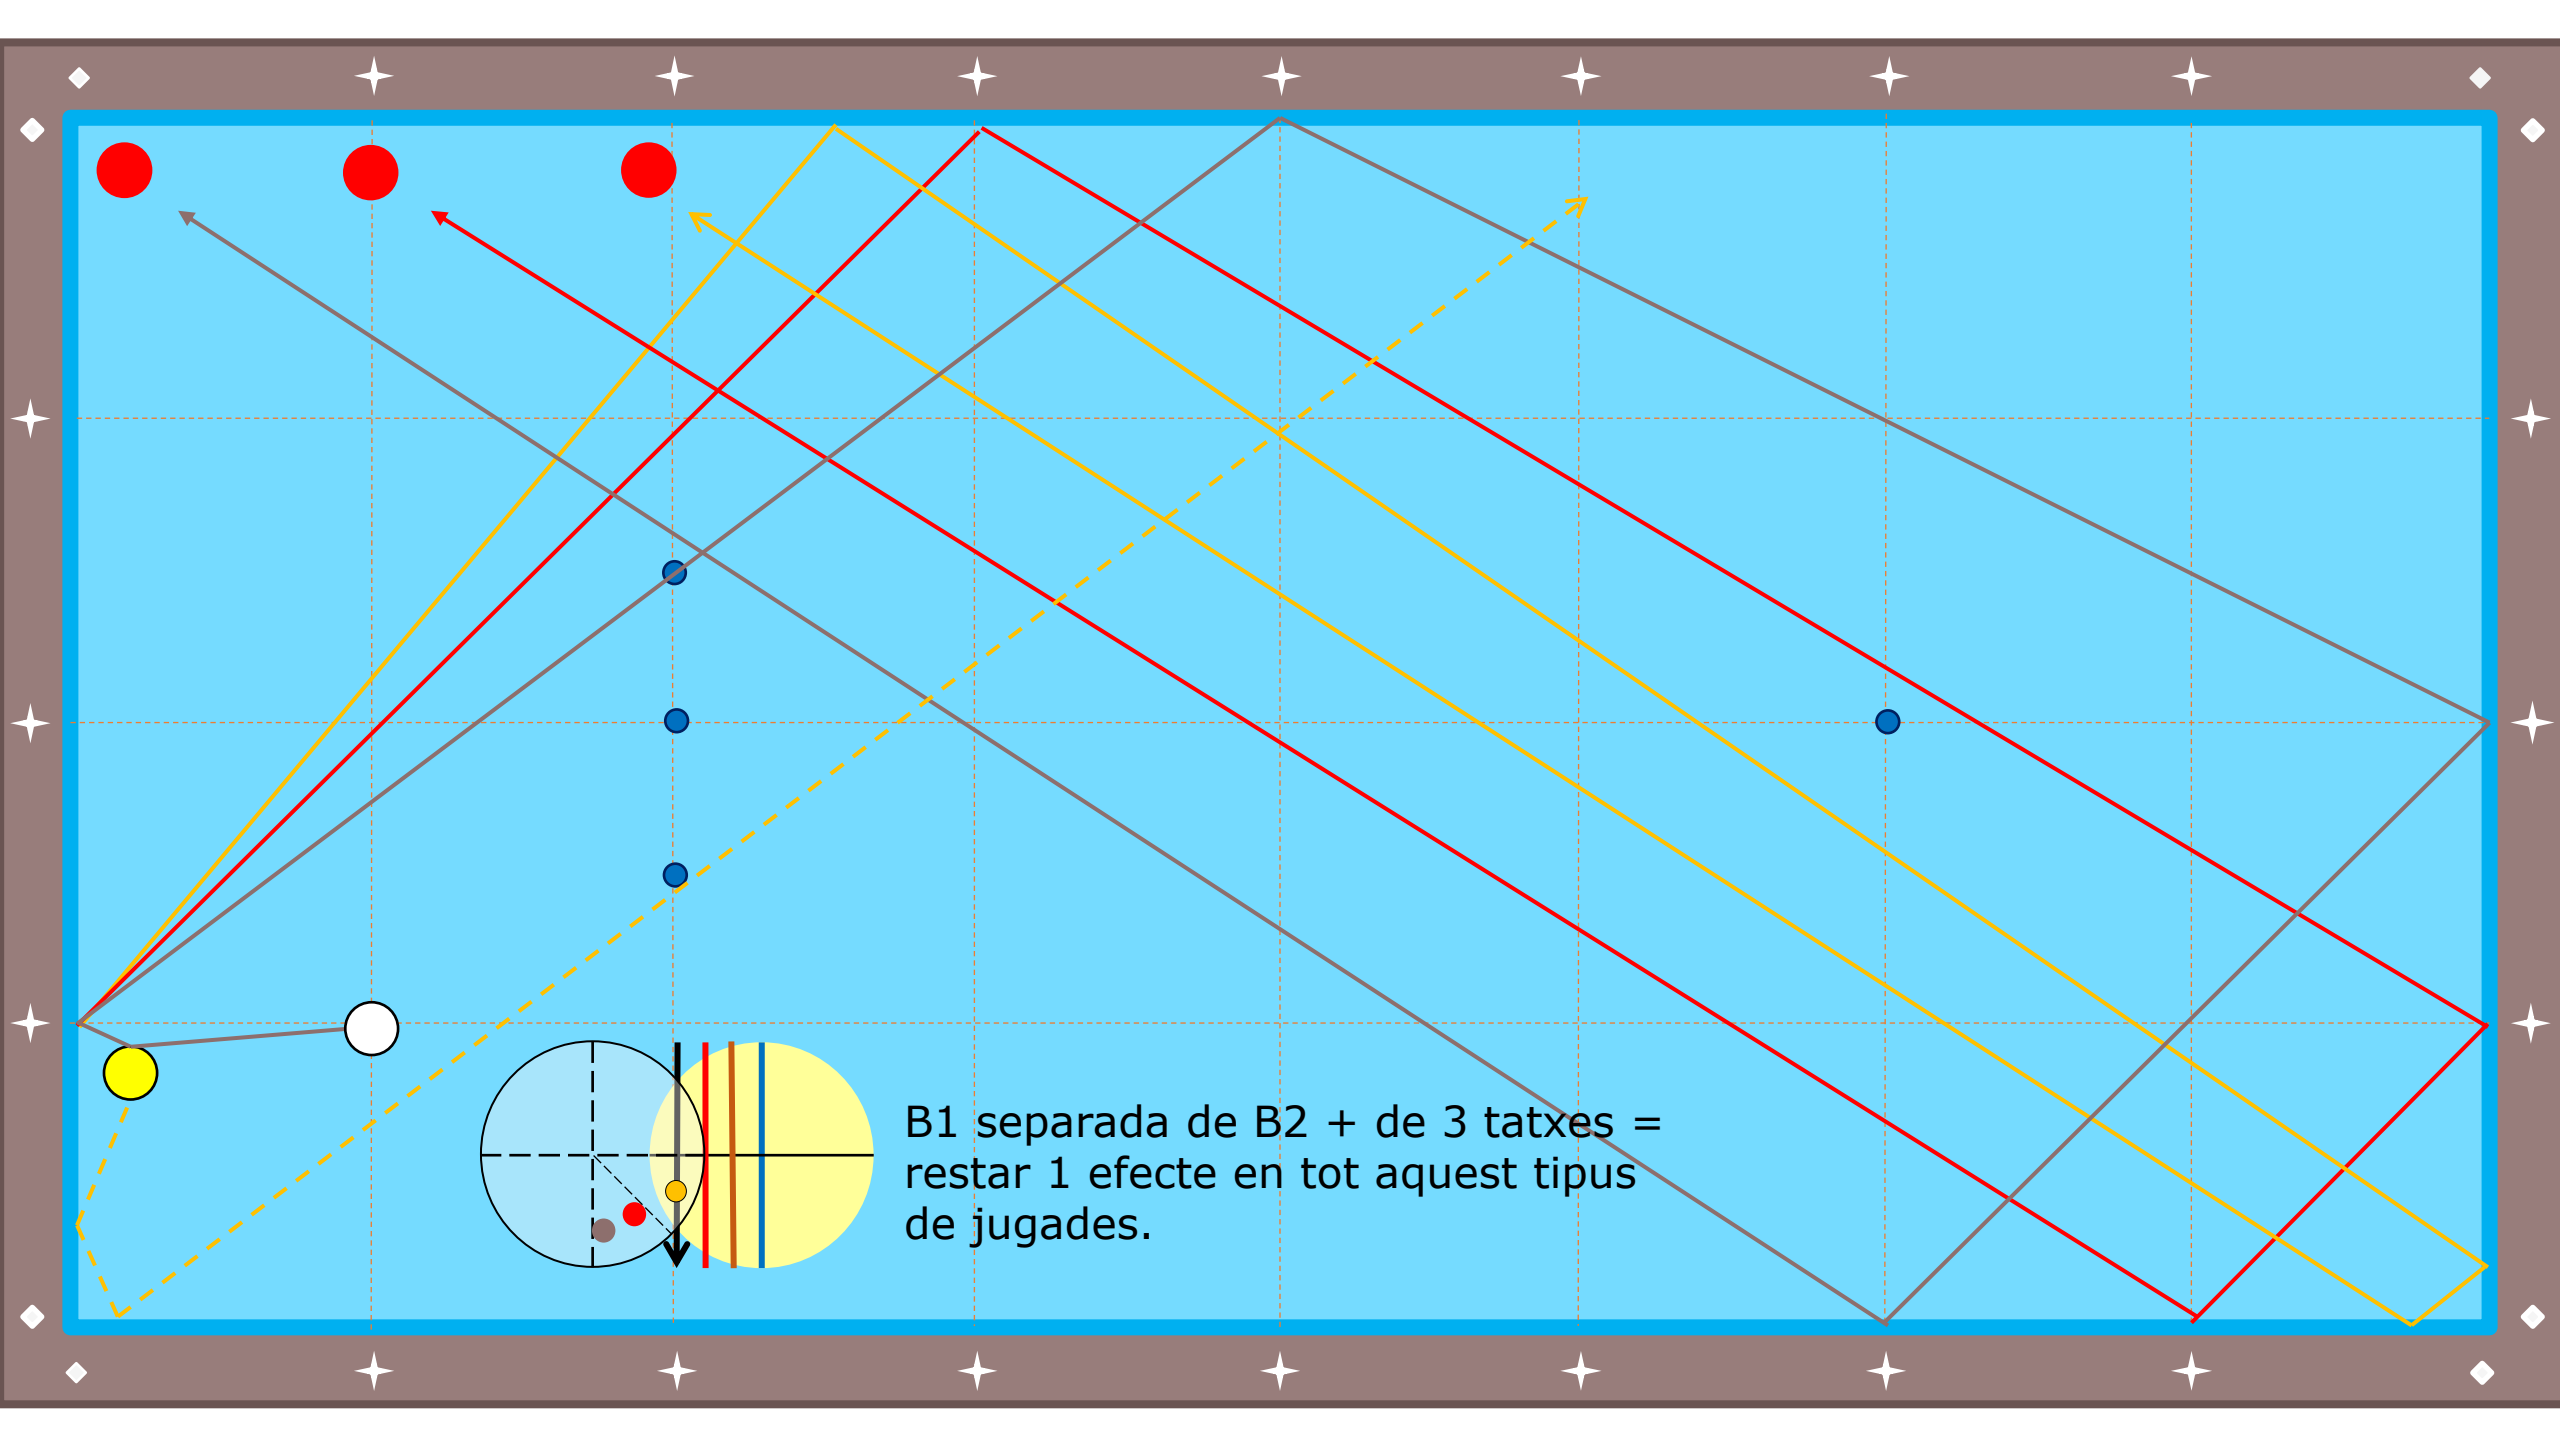

B1 separada de B2 + de 3 tatxes =
restar 1 efecte en tot aquest tipus
de jugades.
