

Con mucha frecuencia sucede que las bolas están colocadas en el mismo cuadrado de la mesa de billar. Si están una delante de la otra en la misma trayectoria, es decir, en paralelo con la banda corta, el tiro que se efectúa se denomina doblote. También de este tiro se pueden obtener puntos y puesta (figs. 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73 y 74).

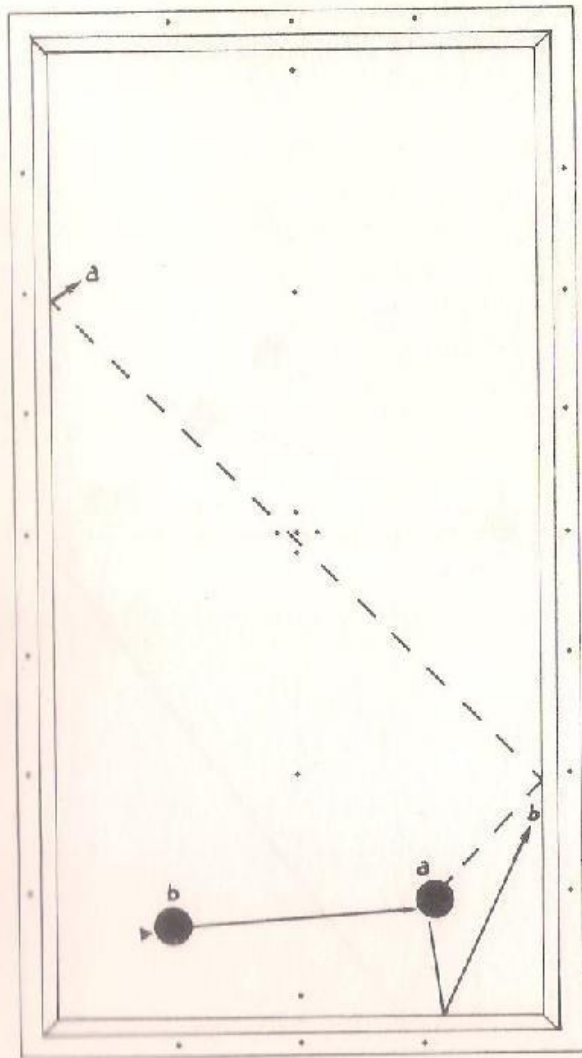

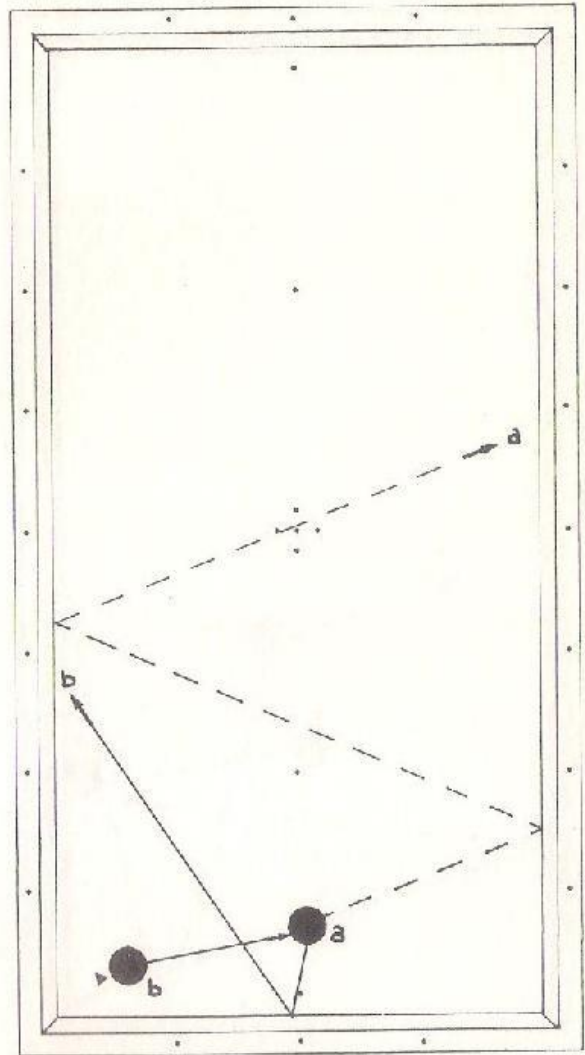

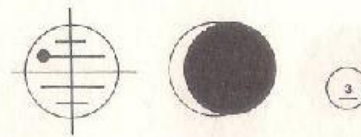

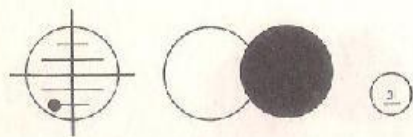

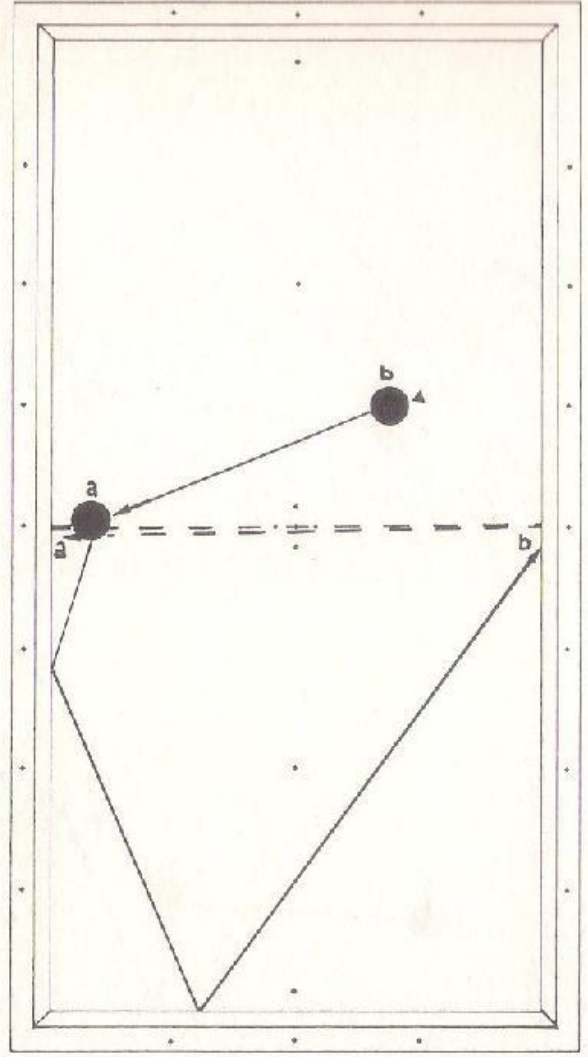

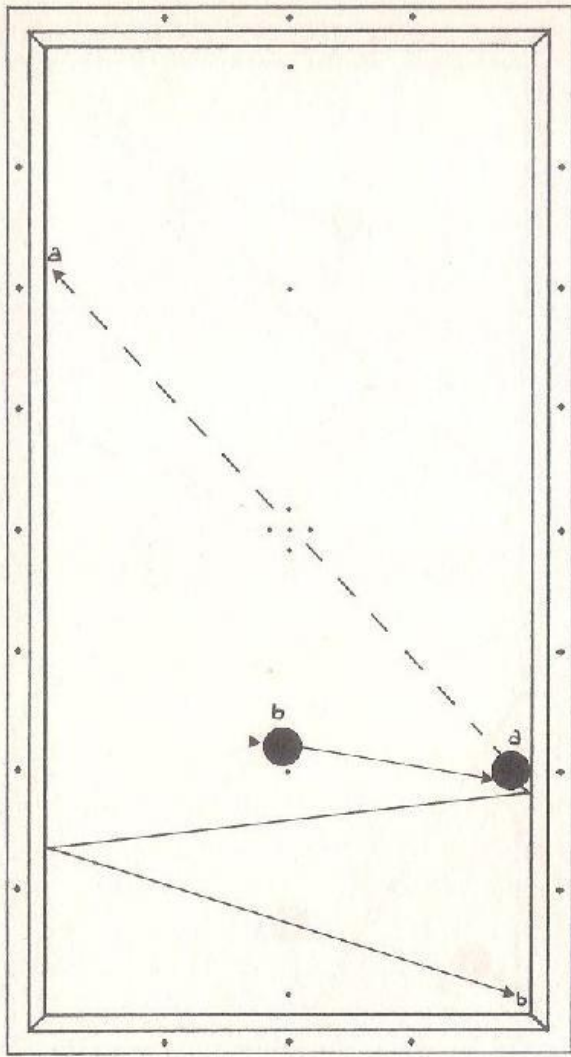

67. DOBLETE DE MEDIO GOLPE

68. DOBLETE DE MEDIO GOLPE DE 2.º

71. DOBLETE DEL REVÉS

72. VARIANTE DE DOBLETE
